

AUTHOR INDEX

- Adams, K.L. and Jensen, A.H. (Urbana, IL, U.S.A.)
 High-fat maize in diets for pigs and sows 201
- Alhassan, W.S., Bello, S.A. and Obilana, A.B. (Zaria, Nigeria)
 Yield and potential feeding value of straws of grain sorghum cultivars developed in
 Nigeria 285
- Åman, P. and Graham, H. (Uppsala, Sweden)
 Whole-crop peas. I. Changes in botanical and chemical composition and rumen in vitro
 degradability during maturation 15
- Åman, P., *see* Graham, H. and Åman, P.
see Nordkvist, E. et al.
see Pettersson, D. et al.
- Atuahene, C.C., Donkoh, A. and Swatson, H. (Kumasi, Ghana)
 Oil palm slurry (OPS) as a partial replacement for maize in the diets of broiler chickens 157
- Bello, S.A., *see* Alhassan, W.S. et al.
- Belyea, R.L., Martz, F.A., Madhisetty, M. and Davis, T.P. (Columbus, MO, U.S.A.)
 Intake, digestibility and energy utilization of corrugated paper diets 57
- Berger, L.L., *see* Lewis, S.M. et al.
- Bremel, D.H., *see* Teh, T.H. et al.
- Cherney, J.H., Johnson, K.D., Tuite, J. and Volenec, J.J. (West Lafayette, IN, U.S.A.)
 Microfloral and compositional changes in alfalfa hay treated with sodium diacetate and
 stored at different moisture contents 45
- Crooks, P., *see* Morgan, C.A. et al.
- Davis, T.P., *see* Belyea, R.L. et al.
- D'Mello, J.P.F. (Edinburgh, Gt. Britain)
 Utilisation of L- and DL-amino acids by broiler chicks fed diets containing Pruteen 1
- Donkoh, A., *see* Atuahene, C.C. et al.
- Elliot, J.I., Modler, H.W. and Timbers, G.E. (Ottawa, Ont., Canada)
 A continuous process for the production of purified porcine γ -globulin for use in pig-milk
 replacer supplements 213
- Fahey, G.C., Jr., *see* Lewis, S.M. et al.
- Flachowsky, G., Wolfram, D., Wolf, I. and Henning, A. (Strasse, G.D.R.)
 Digestibility and beef performances after feeding NaOH- or KOH-treated pig wastes 235
- Graham, H. and Åman, P. (Uppsala, Sweden)
 Whole-crop peas. II. Digestion of early- and late-harvested crops in the gastrointestinal
 tract of pigs 33
- Graham, H., *see* Åman, P. and Graham, H.
see Nordkvist, E. et al.
- Griffith, E.S., *see* McAllan, A.B. and Griffith, E.S.
- Gould, J.M., *see* Lewis, S.M. et al.
- Harmon, R.J., *see* Teh, T.H. et al.
- Hemken, R.W., *see* Teh, T.H. et al.
- Henning, A., *see* Flachowsky, G., et al.
- Hesselman, K., *see* Pettersson, D. et al.
- Hlödversson, R. (Uppsala, Sweden)
 The nutritive value of white- and dark-flowered cultivars of pea for growing-finishing
 pigs 245

- Holzgraefe, D.P., *see* Lewis, S.M. et al.
- Husain, R.A.K., *see* Offer, N.W. and Husain, R.A.K.
- Jensen, A.H., *see* Adams, K.L. and Jensen, A.H.
- Johnson, K.D., *see* Cherney, J.H. et al.
- Karunajeewa, H. and Tham, S.H. (Werribee, Vic., Australia)
The influence of oat groats and dietary level of lysine on the laying performance of crossbred hens 271
- Kornegay, E.T., *see* Ravindran, V. et al.
- Lechtenberg, V.L., *see* Moore, K.J. and Lechtenberg, V.L.

- Lewis, S.M., Holzgraefe, D.P., Berger, L.L., Fahey, G.C., Jr. (Urbana, IL, U.S.A.), Gould, J.M. and Fanta, G.F. (Peoria, IL, U.S.A.)
Alkaline hydrogen peroxide treatments of crop residues to increase ruminal dry matter disappearance in sacco 179
- Madisetty, M., *see* Belyea, R.L. et al.
- Martz, F.A., *see* Belyea, R.L. et al.
- McAllan, A.B. and Griffith, E.S. (Reading, Gt. Britain)
The effects of different sources of nitrogen supplementation on the digestion of fibre components in the rumen of steers 65
- Mirgani, T. (Khartoum, Sudan)
Effect of sodium hydroxide treatment of desert grass on carbohydrate digestibility by goats 219
- Modler, H.W., *see* Elliot, J.I. et al.
- Moore, K.J. (Urbana, IL, U.S.A.) and Lechtenberg, V.L. (West Lafayette, IN, U.S.A.)
Chemical composition and digestion in vitro of orchardgrass hay ammoniated by different techniques 109
- Morgan, C.A., Whittemore, C.T., Phillips, P. and Crooks, P. (Edinburgh, Gt. Britain)
The prediction of the energy value of compounded pig foods from chemical analysis 81
- Nordkvist, E., Graham, H. and Åman, P. (Uppsala, Sweden)
Degradation in vitro and in sacco of red clover leaves and stems 295
- Obilana, A.B., *see* Alhassan, W.S. et al.
- Offer, N.W. and Husain, R.A.K. (Ayr, Gt. Britain)
Fish silage as a protein supplement for early-weaned calves 165
- Perdock, H.B. and Leng, R.A. (Armidale, N.S.W., Australia)
Hyperexcitability in cattle fed ammoniated roughages 121
- Pettersson, D., Hesselman, K. and Aman, P. (Uppsala, Sweden)
Nutritional value for chickens of dried distillers-spent-grain from barley and dehulled barley 145
- Phillips, P., *see* Morgan, C.A. et al.
- Rajagura, A.S.B., *see* Ravindran, V. et al.
- Ravindran, V., Rajagura, A.S.B. (Peradeniya, Sri Lanka) and Kornegay, E.T. (Blacksburg, VA, U.S.A.)
Influence of processing methods and storage time on the cyanide potential of cassava leaf meal 227
- Swatson, H., *see* Atuahene, C.C. et al.
- Tahm, S.H., *see* Karunajeewa, H. and Tahm, S.H.
- Teh, T.H., Hemken, R.W., Bremel, D.H. and Harmon, R.J. (Lexington, KY, U.S.A.)
Comparison of buffers on rumen functions, turnover rate and gastric secretions in Holstein steers 257

- Timbers, G.E., *see* Elliot, J.I. et al.
Tuite, J., *see* Cherney, J.H. et al.
Volenc, J.J., *see* Cherney, J.H. et al.

Wolf, I., *see* Flachowsky, G. et al.
Wolfram, D., *see* Flachowsky, G. et al.

SUBJECT INDEX

Alfalfa

- Microfloral and compositional changes in alfalfa hay treated with sodium diacetate and stored at different moisture contents 45

Amino acids

- Utilisation of L- and DL-amino acids by broiler chicks fed diets containing Pruteen 1

Ammonia

- Chemical composition and digestion in vitro of orchardgrass hay ammoniated by different techniques 109
- Hyperexcitability in cattle fed ammoniated roughages 121

Artisidia adsensconis

- Effect of sodium hydroxide treatment of desert grass on carbohydrate digestibility by goats 219

Barley

- Nutritional value for chickens of dried distillers-spent-grain barley and dehulled barley .. 145

Blood

- A continuous process for the production of purified porcine γ -globulin for use in pig-milk replacer supplements 213

Broiler chickens

- Oil palm slurry (OPS) as a partial replacement for maize in the diets of broiler chickens 157
- Utilisation of L- and DL-amino acids by broiler chicks fed diets containing Pruteen 1

Buffers

- Comparison of buffers on rumen functions, turnover rate and gastric secretions in Holstein steers 257

Calves

- Fish silage as a protein supplement for early-weaned calves 165

Cassava

- Influence of processing methods and storage time on the cyanide potential of cassava leaf meal 227

Cattle

- Comparison of buffers on rumen functions, turnover rate and gastric secretions in Holstein steers 257
- Digestibility and beef performance after feeding NaOH- or KOH-treated pig wastes 235
- Hyperexcitability in cattle fed ammoniated roughages 121
- Intake, digestibility and energy utilization of corrugated paper diets 57
- The effect of different sources of nitrogen supplementation on the digestion of fibre components in the rumen of steers 65

Chemical analysis

- The prediction of the energy value of compounded pig foods from chemical analysis 81

Chemical composition

- Chemical composition and digestion in vitro of orchardgrass hay ammoniated by different techniques 109
- Nutritional value for chickens of dried distillers-spent-grain barley and dehulled barley .. 145
- The prediction of the energy value of compounded pig foods from chemical analysis 81
- Whole-crop peas. I. Changes in botanical and chemical composition and rumen in vitro degradability during maturation 15

Chickens

Nutritional value for chickens of dried distillers-spent-grain barley and dehulled barley .. 145

Utilisation of L- and DL-amino acids by broiler chicks fed diets containing Pruteen 1

Clover

Degradation in vitro and in sacco of red clover leaves and stems 295

Crop composition

Microfloral and compositional changes in alfalfa hay treated with sodium diacetate and stored at different moisture contents 45

Whole-crop peas. I. Changes in botanical and chemical composition and rumen in vitro degradability during maturation 15

Whole-crop peas. II. Digestion of early- and late-harvested crops in the gastrointestinal tract of pigs 33

Crop maturation

Whole-crop peas. I. Changes in botanical and chemical composition and rumen in vitro degradability during maturation 15

Whole-crop peas. II. Digestion of early- and late-harvested crops in the gastrointestinal tract of pigs 33

Cyanide

Influence of processing methods and storage time on the cyanide potential of cassava leaf meal 227

Desert Grass

Effect of sodium hydroxide treatment of desert grass on carbohydrate digestibility by goats 219

Degradation

Degradation in vitro and in sacco of red clover leaves and stems 295

Whole-crop peas. I. Changes in botanical and chemical composition and rumen in vitro degradability during maturation 15

Dietary supplements

A continuous process for the production of purified porcine γ -globulin for use in pig-milk replacer supplements 213

Fish silage as a protein supplement for early-weaned calves 165

Oil palm slurry (OPS) as a partial replacement for maize in the diets of broiler chickens 157

The effects of different sources of nitrogen supplementation on the digestion of fibre components in the rumen of steers 65

Utilisation of L- and DL-amino acids by broiler chicks fed diets containing Pruteen 1

Diets

High-fat maize in diets for pigs and sows 201

Intake, digestibility and energy utilization of corrugated paper diets 57

Oil palm slurry (OPS) as a partial replacement for maize in the diets of broiler chickens 157

The nutritive value of white- and dark-flowered cultivars of peas for growing-finishing pigs 245

The prediction of the energy value of compounded pig foods from chemical analysis 81

Digestibility

The nutritive value of white- and dark-flowered cultivars of peas for growing-finishing pigs 245

Digestion

Alkaline hydrogen peroxide treatments of crop residues to increase ruminal dry matter disappearance in sacco 179

Chemical composition and digestion in vitro of orchardgrass hay ammoniated by different techniques 109

Comparison of buffers on rumen functions, turnover rate and gastric secretions in Holstein steers	257
Degradation in vitro and in sacco of red clover leaves and stems	295
Digestibility and beef performance after feeding NaOH- or KOH-treated pig wastes	235
Effect of sodium hydroxide treatment of desert grass on carbohydrate digestibility by goats	219
Intake, digestibility and energy utilization of corrugated paper diets	57
Nutritional value for chickens of dried distillers-spent-grain barley and dehulled barley ..	145
The effect of different sources of nitrogen supplementation on the digestion of fibre components in the rumen of steers	65
Whole-crop peas. II. Digestion of early- and late-harvested crops in the gastrointestinal tract of pigs	33
Energy	
The prediction of the energy value of compounded pig foods from chemical analysis	81
Fat	
High-fat maize in diets for pigs and sows	201
Fibre	
The effect of different sources of nitrogen supplementation on the digestion of fibre components in the rumen of steers	65
Fish silage	
Fish silage as a protein supplement for early-weaned calves	165
Food value	
Yield and potential feeding value of straws of grain sorghum cultivars developed in Nigeria	285
Gastric secretions	
Comparison of buffers on rumen functions, turnover rate and gastric secretions in Holstein steers	257
Goats	
Effect of sodium hydroxide treatment of desert grass on carbohydrate digestibility by goats	219
Grass	
Effect of sodium hydroxide treatment of desert grass on carbohydrate digestibility by goats	219
Groats	
The influence of oat groats and dietary level of lysine on the laying performance of crossbred hens	271
Hay	
Chemical composition and digestion in vitro of orchardgrass hay ammoniated by different techniques	109
Microfloral and compositional changes in alfalfa hay treated with sodium diacetate and stored at different moisture contents	45
Hens	
The influence of oat groats and dietary level of lysine on the laying performance of crossbred hens	271
Hydrogen peroxide	
Alkaline hydrogen peroxide treatments of crop residues to increase ruminal dry matter disappearance in sacco	179
Hyperexcitability	
Hyperexcitability in cattle fed ammoniated roughages	121
Immunoglobulin	
A continuous process for the production of purified porcine γ -globulin for use in pig-milk replacer supplements	213

Laying performance	
The influence of oat groats and dietary level of lysine on the laying performance of crossbred hens	271
Lysine	
The influence of oat groats and dietary level of lysine on the laying performance of crossbred hens	271
Maize	
High-fat maize in diets for pigs and sows	201
Oil palm slurry (OPS) as a partial replacement for maize in the diets of broiler chickens	157
<i>Manihot esculenta</i> Crantz.	
Influence of processing methods and storage time on the cyanide potential of cassava leaf meal	227
<i>Medicago sativa</i>	
Microfloral and compositional changes in alfalfa hay treated with sodium diacetate and stored at different moisture contents	45
<i>Methylophilus methylotrophus</i>	
Utilisation of L- and DL-amino acids by broiler chicks fed diets containing Pruteen	1
Microflora	
Microfloral and compositional changes in alfalfa hay treated with sodium diacetate and stored at different moisture contents	45
Milk	
A continuous process for the production of purified porcine γ -globulin for use in pig-milk replacer supplements	213
Nigeria	
Yield and potential feeding value of straws of grain sorghum cultivars developed in Nigeria	285
Nitrogen	
Chemical composition and digestion in vitro of orchardgrass hay ammoniated by different techniques	109
Hyperexcitability in cattle fed ammoniated roughages	121
The effect of different sources of nitrogen supplementation on the digestion of fibre components in the rumen of steers	65
Nutritional value	
Nutritional value for chickens of dried distillers-spent-grain barley and dehulled barley ..	145
The nutritive value of white- and dark-flowered cultivars of peas for growing-finishing pigs	245
Oats	
The influence of oat groats and dietary level of lysine on the laying performance of crossbred hens	271
Oil Palm	
Oil palm slurry (OPS) as a partial replacement for maize in the diets of broiler chickens	157
Orchardgrass	
Chemical composition and digestion in vitro of orchardgrass hay ammoniated by different techniques	109
Paper	
Intake, digestibility and energy utilization of corrugated paper diets	57
Peas	
The nutritive value of white- and dark-flowered cultivars of peas for growing-finishing pigs	245
Whole-crop peas. I. Changes in botanical and chemical composition and rumen in vitro degradability during maturation	15

Whole-crop peas. II. Digestion of early- and late-harvested crops in the gastrointestinal tract of pigs	33
Performance	
Digestibility and beef performance after feeding NaOH- or KOH-treated pig wastes	235
Pigs	
A continuous process for the production of purified porcine γ -globulin for use in pig-milk replacer supplements	213
High-fat maize in diets for pigs and sows	201
The nutritive value of white- and dark-flowered cultivars of peas for growing-finishing pigs	245
The prediction of the energy value of compounded pig foods from chemical analysis	81
Whole-crop peas. II. Digestion of early- and late-harvested crops in the gastrointestinal tract of pigs	33
Pig wastes	
Digestibility and beef performance after feeding NaOH- or KOH-treated pig wastes	235
Potassium hydroxide	
Digestibility and beef performance after feeding NaOH- or KOH-treated pig wastes	235
Processing methods	
Influence of processing methods and storage time on the cyanide potential of cassava leaf meal	227
Production	
Dictionary of animal production terminology (book review)	225
Protein	
Fish silage as a protein supplement for early-weaned calves	165
Utilisation of L- and DL-amino acids by broiler chicks fed diets containing Proteun	1
Red clover	
Degradation in vitro and in sacco of red clover leaves and stems	295
Residues	
Alkaline hydrogen peroxide treatments of crop residues to increase ruminal dry matter disappearance in sacco	179
Roughage	
Hyperexcitability in cattle fed ammoniated roughages	121
Rumen	
Alkaline hydrogen peroxide treatments of crop residues to increase ruminal dry matter disappearance in sacco	179
Comparison of buffers on rumen functions, turnover rate and gastric secretions in Holstein steers	257
The effect of different sources of nitrogen supplementation on the digestion of fibre components in the rumen of steers	65
Whole-crop peas. I. Changes in botanical and chemical composition and rumen in vitro degradability during maturation	15
Silage	
Fish silage as a protein supplement for early-weaned calves	165
Sodium hydroxide	
Digestibility and beef performance after feeding NaOH- or KOH-treated pig wastes	235
Effect of sodium hydroxide treatment of desert grass on carbohydrate digestibility by goats	219
Sorghum	
Yield and potential feeding value of straws of grain sorghum cultivars developed in Nigeria	285

Sows	
High-fat maize in diets for pigs and sows	201
Steers	
Comparison of buffers on rumen functions, turnover rate and gastric secretions in Holstein steers	257
The effect of different sources of nitrogen supplementation on the digestion of fibre components in the rumen of steers	65
Storage	
Influence of processing methods and storage time on the cyanide potential of cassava leaf meal	227
Microfloral and compositional changes in alfalfa hay treated with sodium diacetate and stored at different moisture contents	45
Straw	
Yield and potential feeding value of straws of grain sorghum cultivars developed in Nigeria	285
Terminology	
Dictionary of animal production terminology (book review)	225
Yield	
Yield and potential feeding value of straws of grain sorghum cultivars developed in Nigeria	285
